

## Product Summary

**Product Name:** G4 Integrated Bariatric Hybrid Mattress system

**Product Code:** 8248

**Design Platform:** Integrated Hybrid Mattress system (foam-in-cell)

### **Specification summary:**

**Level of risk -** Very High

**Mattress Dimensions** – 2,000 x 1200 x 150mm

**Mattress net weight** – 22kg

**Pump unit dimensions** – 265 x 175 x 90 mm

**Pump net weight** – 1.7kg

**User weight threshold** - Up to 60 stone / 380 kg (no lower specification limit)

**Functionality:** Cycle completion – 12 minutes

Electronic pressure sensing control

Voltage – 220-240V, 50 Hz

Power Consumption – 10W

2 in 1 cell inflation

### **Technical support:**

**Warranty** - 2 years

**Warranty extension** – yes, when manufacturer-serviced annually

**Annual service** – yes, carried out by UK-based manufacturer

**Spare parts availability** – readily available, UK-based manufacturer.

**Replacement covers** – Choice of HF-welded or stitched, full or section zips

### **Product care/maintenance:**

**Infection control** – Integrated cable management

- Integrated air hose cover which is wipeable and machine-washable
- 1,000 ppm diluted or 0.1% Hypochlorite solution (or to be used in conjunction with local infection control guidelines)

**Replacements** - Individually replaceable top and bottom covers

- ALL air-pump key assemblies available as spare parts to order

### **Features & Benefits:**

- Combination of foam and air used by the integrated hybrid mattress design allows for broader clinical application up to very high risk level
- Design for easy profile when used with profiling bed frames
- Integrated carry handles for easy transportation and storage
- Integrated visual and audible alarms when faults detected
- Rapid deflation via integrated CPR
- Low and high pressure settings
- Unique, patented air-cell design which prevents air cell twisting
